"One Dog Story" This collection includes over 130 graphic elements that feature a cute dog. You can create a unique mood for your products and messages by using the 18 facial expressions and body positions that the character uses.

- Compatible with Adobe Photoshop, Adobe InDesign, and Adobe Photoshop Elements.

"I set out to portray the personality of a small dog through gestures, body postures, and emotions when I was working on this set. I created a bright, humorous, and charming character with a limited palette of colors. This little guy is my favorite. It's great that this character has become so popular with our clients, followers, and other people." -- Daria Dailova, illustrator

This set can be used to create any number of printed products, ads messages, or blog posts using the same color scheme. Some graphics elements were also included for major holidays such as Easter, Christmas, Valentine's Day, Halloween, and Valentine's Day. This tool will allow you to create thematic greeting cards, invitations, and stickers as well as cups, stationery, prints, cups, and other goods for any occasion.
