**Quest 13-INTREPID.** Quest 13 Intrepid bridges the gap between accuracy in color and tonal design. The default settings offer total color accuracy for each of the three dynamic versions, giving natural, clear edits every time. If you're looking to go for something different Intrepid is the one to choose. Intrepid setting can be boosted to give an olive-yellow warm color, and also a change in tone.

- AQ13 I**Accurate colors and neutral tonal characteristics preserve the natural beauty in your image while adding enough power to bring it to life.
- AQ13 II** - The modified tonal feature provides soft highlights with an easy roll-off towards dark shadows and midtones which combine to create an exciting intensity.
- AQ13 II** - The sloping shadows and muted highlights blend to create a soft and peaceful palette for a more simple and minimalist design.

- Intrepid Profile** - Make the profile larger to create a warm olive wash to the image. It also has more contrast and subdued highlights.
- Intrepid B&W** - This black and white profile is able to change each base preset's appearance from an uncluttered and cool tone and transform it into a rich warm, warm monochromatic appearance.

**Please note:** Set requires a subscription version of the Adobe Lightroom or Photoshop/ACR apps the Lightroom Classic CC (v11+) and/or the LR Photoshop CC (v5+) and/or Photoshop ACR (v14+). Photoshop ACR (v14+) After purchasing you can visit our installation page for instructions on how to install the appropriate Archipelago Presets.

**United in our future.** Since its beginnings in the Pacific Northwest, the Archipelago community has spread across the globe. We understand that growth is a responsibility, and we think our duty is to contribute some of our profits to non-profits that are dedicated to the preservation of our planet and fighting for social and racial justice and equality.
