Benj Photography – Light (Custom Presets): Introducing "Light" by benj™|Light, a departure from my usual heavier color grading style. This set comprises 8 presets (with 3 bonus ones) that are lightly graded yet still exude the cinematic look I adore. Each preset offers a unique aesthetic while maintaining consistency in tones.

For those familiar with my past products, you'll notice a shift towards a softer touch in color grading. While my previous styles leaned towards more intense colors, "Light" strikes a balance by offering a more subtle approach to achieve that cinematic vibe.

Included in this package:

- Read Me PDF file (I highly recommend giving it a thorough read)
- 11 benj™|Light presets

Try these presets, and you'll experience firsthand the subtle yet captivating effects they bring to your images.
