**Aescripts - Caption Cat for Resolve v1.0.000:**

Caption Cat is a powerful captioning device integrated immediately into DaVinci Resolve, designed to raise video captions with animated and customizable designs.

With integrated AI-powered transcription helping 112 languages and social media secure zones for optimal caption placement, Caption Cat gives a seamless, flexible workflow for content creators. It eliminates the need for 0.33-celebration offerings and works without a subscription, ensuring a value-effective, one-time buy solution for expert video captioning.

- **In-App Captioning:** Direct integration into DaVinci Resolve, eliminating the need for external tools.
- **AI-Powered Speech-to-Text:** Built-in transcription powered by OpenAI's Whisper, supporting 112 languages.
- **Animated Caption Presets:** Customizable caption styles for dynamic visual impact.
- **Social Media Safe Zones:** Visual overlays to prevent caption overlap with platform UI elements.
- **Customization & Reusable Presets:** Save unique designs for consistent branding across videos.
- **No Subscription:** Permanent license with a one-time purchase.
- **Flexible Workflow:** Create subtitle tracks using Resolve's transcription, Caption Cat's AI transcription, or imported SRT files.
- **Language Support:** Transcription and translation support for 112 languages, including automatic English translation.
