LUTs Manager: Real-Time Bulk Previews Tool:

LUTs Manager is an advanced color grading tool that revolutionizes workflow efficiency and creative possibilities. It enables real-time preview and bulk application of LUTs across major editing platforms, streamlining the color grading process. With its user-friendly interface, robust organizational capabilities, and compatibility with millions of LUTs, LUTs Manager simplifies complex workflows and boosts productivity. Accompanied by a professional-grade pack of 500 LUTs, it offers versatile styles suited for any project, preserving natural tones while delivering stunning visual results.

"LUTs Manager: Real-Time Bulk Previews Tool" Sample:

Instant Preview

- Real-time LUT application on frames, images, or videos.
- Custom preview frame imports for tailored results.

Smart Search & Sorting

- Advanced search engine with tags, categories, and real-time suggestions.
- Sorting by usage frequency or alphabetical order.

Tagging & Organization

- Custom tag and auto-folder systems for efficient navigation.
- A favourites system is used for quick access to preferred LUTs.

Batch Processing

- Apply LUTs to multiple files simultaneously for efficiency.

Responsive UI

- A fully resizable, responsive design is adaptable to any workspace.

Comprehensive Integration

- Works seamlessly with Premiere Pro, After Effects, Da Vinci Resolve, Final Cut Pro, and more.
- Standalone version for universal software compatibility.

Advanced Technical Features

- Lightweight operation with optimized memory management.
- Support for extensive LUT libraries with real-time processing.

- **Universal Compatibility:** Works with all major editing software (Rec. 709 optimized).
- **Extensive Variety:** 500+ LUTs in 85 categories, each with 5 variations for diverse projects.
- **Preserves Natural Tones:** Accurate skin tone preservation for professional-grade results.
- **Styles for Every Project:** Includes cinematic, adventure, drone, beauty, monochrome, and more styles.
- **Technical Enhancements:** Optimized for fast renders with technical log camera profiles included.
- **Perfect for Any Media:** Suitable for films, vlogs, commercials, photography, and more.
