N-Panel Filtering

The add-on lets you split your top add-ons into categories and designate an icon for each category.

Then, you can turn it on or off by clicking on the icons in the Viewport.

You can also make use of a 'pie' menu to change categories

Gfx plugin details of Blender Market – Clean Panels

The product is in the **category from Blender Market**, for more information about this post you can click on the home page link in the sidebar.

Drop-Down Panels

What would it be like if you could save your most-loved tabs to make them readily accessible at all times? CleanPanels You can! Similar to Workspace filtering, you can group your most popular tabs into categories and then pin your tabs to the top of the bar to facilitate access.

Another benefit of dropdowns is that even when you disable the add-on within the workspace currently, you'll still be able to access the panel for certain functions.

Pop-Up Panels

CleanPanels allows you to access your tabs/panels via a pie menu, and also.

How can Clean Panels be improved?

Since the inception of Clean Panels, We have been working closely with a group of users to learn about the add-ons that had problems or feedback they got to help in their work. We are planning to continue this journey and look at ways we can improve this software.

How to install

- 1. Open the software, click Edit (EDIT) → Preference → Plug-in (AADD-ONS) → Install
- 2. Restart Blender, you can see the installed plug-in in the file → user settings → plug-in
