HUD UI Game Interface 05 (VH 54481552) - AE Project:

The HUD Game UI is specifically crafted for the gaming industry, featuring a comprehensive interface with HUD UI elements. It includes one HUD UI display screen and a well-organized HUD Medical Pack, with all main screens and assets neatly categorized for easy access. Designed using After Effects shape layers, the vector-based elements are fully editable and resizable.

"HUD UI Game Interface" Sample:

This product features over 40 HUD (Heads-Up Display) UI screen assets designed for use in After Effects CC 2020 and later versions. The assets are presented in 1920x1080 resolution and are fully compatible with After Effects, allowing for easy drag-and-drop functionality over existing footage. They include a global and local smart color controller for customization without requiring any additional plugins, making them user-friendly and adaptable for various projects.
