Videohive NFT Generator 35641186:

The **NFT Generator** is a handy tool that can transform your artwork into something called an NTF ("Non-Fungible Token") which is now waiting to become mint.

is a simple 3 steps

- 1. Include your media and text
- 2. Adjust quick settings (color, reflections, camera angle, etc.)
- 3. Give it a go

100 percent After Effects

NFT Generator Kit includes three scenes that are ready to use Classic NFT Case Parallax Card and Reflective Foil Card. Each scene was created using After Effects without plugins and prerenders **which means you can easily modify the settings and rotate the cards 360deg.**

Gfx plugin details of NFT Generator (Videohive 35641186) - AE Project
