To search for similar products to Glass Break Action Trailer (Videohive 39168133) - AE Project,

### Folder " Edit "

Here you can add photo files for your project . It also allows you to change all text composition.

### Render your video

Double-Click on the RENDER COMP to open it in the timeline. Afterward, go to Composition – Add to Render Queue, and the Render Queue will open in the timeline window with the new Render Job added.

Make sure the Render Settings are set to Best Settings. Click on whatever is written right to the Output Module, and a new window will open up. In that window, you can change the codec and file format. Also, if you have used sound in this project, activate Audio Output at the bottom of that new window. Else your video will be muted.

Last, click on whatever is written right to the "Output to" text and set the folder where your video will be saved. When you have set everything to your needs, click Render and wait for it to finish. Depending on the project as well as your computer specs, this can take some time.

### Color Control

Open the layer property “Control Project” in the Project. Here you can easily replace the color of all text layers
