**Speed Ramping Wizard** allows for the easy creation of quality speed ramps within Da Vinci Resolve. The toolkit includes slow-motion and fast-paced designs for any video, offering intuitive controls and customizable effects to enhance them. Moreover, the Speed Ramping Wizard's simple design makes it easy for anybody to use. The rapid zoom, blast speed effects, smoother transitions, and other eye-catching visuals let the user improve their videos with just one click. With this magic tool, editors can add silky smooth speed effects along with RGB, camera shake, and flash. This tool is available for free and in Studio Da Vinci Resolve versions.

- **Six-Speed Curves:** You can select from six pre-defined speed curves, or you can set a new pace and customize them all to your liking. Special options such as boomerang and reverse motion are also available.
- **One-click vibrant effects:** RGB, camera shake, and flash are some of the many effects that can be effortlessly added to your clips automatically or whenever the user pleases.
- **Smoother zoom transitions:** Clips are now easily connected through minimal camera movement zoom effects, which add a sense of playfulness to your videos.
- **User-Friendly Interface:** The tool showcases your speed curve, frame points, and video speed on the screen, simplifying how you can customize your video during work.
- **Versatility:** The tool is ideal for both the Free and Studio versions of DaVinci Resolve and fully supports vertical resolutions for social media content.
