Ten different presets that are based on the color palettes by California. With a single tap, your images will be changed into a crisp, beautiful edit.

Perfect for sunsets and desert tones that are orange This preset pack is perfect for those who want to make their photos warmer within a matter of seconds.

What's Included:

- 10 Cali Desktop Presets
- A step-by-step guide to installation (PDF along with video)

Mobile vs desktop

Desktop presets can only be used for desktop versions of Lightroom. Mobile presets work only using Lightroom's free Lightroom mobile application. Desktop and mobile preset are identical, however, they are slightly different since they're created in a different ways. If you're looking for total control over editing your images, desktop presets are excellent, but if you prefer editing your photos quickly on your mobile, Mobile presets will be more suitable for you.

It is important to note that mobile presets do not work with the version for desktops of Lightroom like our desktop presets will not be compatible with mobile devices.

This desktop presets were created specifically for the latest Lightroom Classic CC desktop version and are compatible with RAW and JPEG images. They're not compatible for use with Lightroom Mobile. The presets will be delivered immediately by email after payment has been received.
