MotionVFX - mTransition Light 2:

Luminous Transitions Plugin for Final Cut Pro X

Enhance your video projects with *Luminous Transitions*, a collection of 50 expertly designed light-leak transitions tailored exclusively for Final Cut Pro X.

These transitions deliver organic lighting effects that seamlessly integrate into your edits, adding a touch of brilliance to your scenes. The drag-and-drop functionality ensures a streamlined workflow, while customizable parameters provide flexibility for precise adjustments.

Optimized for macOS 10.13.6 and above, the plugin supports both Apple Silicon and Intel processors, maintaining compatibility with high-resolution projects and horizontal aspect ratios without requiring extra adjustments. Brighten your edits with this innovative solution for creating captivating transitions between clips.
