The darkness is only the beginning. Engage your audience to the next level.

Dark, twisted, and bizarre! Black Hole - Dark Atmospheres is a look at the dark aspect of cinematic sound. Take a trip down a perilous and eerie tunnel with us while we shine a light on some truly dystopian sounds that are perfect to create a memorable mood.

Don't think of the usual dreams, drones, or atmospheres. Don't expect standard Hollywood tension basslines or cinematic beats. You will find a variety of unique and off-center sounds in the 18 categories, which include different kinds of atmospheres and drones, basslines beats, impacts, hits, and even a variety of mutated sound effects.

With these sinister sounds, you'll be able to create dark soundscapes and invoke the feeling of despair. The natural nature of the many samples is a great way to anchor the sound in real life, making these sounds even more powerful. Black Hole - Dark Atmospheres is a sonic assault on the limits of both fear and hope. We hope you have fun using them to take your audience to the edge and beyond.
