Blender Market - Better Pie Menus:

"Better Pie Menus" is an effective Blender add-on designed to beautify the 3-D modeling manner for both novices and professional users.

It introduces customizable pie, clever, and popup menus that offer brief get admission to to essential gear, substantially reducing the want to navigate through complicated menus.

The upload-on adapts dynamically to distinct object sorts and modes, supplying a pretty green and streamlined workflow.

- **Dynamic Pie and Smart Menus:** Menus modify automatically to the chosen item type and mode, making sure equipment is continually contextually relevant.
- **Custom Primitives with Widgets:** Enhanced primitive introduction tools and innovative menus for faster item introduction.
- **Modifier Popup:** Simplify the procedure of modifying object modifiers, including a guide for curves and Grease Pencil objects.
- **Material Popup with Presets:** Quickly follow and manage materials with built-in presets for curves and Grease Pencil.
- **Shading Popup:** Effortlessly get the right of entry to viewport and object shading settings, which include tools for view storage.
- **PIE Editor:** Easily switch between editors and customize views with an easy interface.
- **Customizable Pie Menus:** Fully adjustable pie menus tailor-made for mesh, curves, Grease Pencil, editors, and workspaces.
- **Innovative Menus for Mesh Editing:** Context-sensitive equipment for mesh editing featuring both typically used and custom alternatives.
