10 Lightroom Presets: Mobile and Desktop Lightroom

These presets can be used to create a consistent Instagram feed with beautiful images in modern colors. They are great for bloggers who want to showcase their travel, fashion, or lifestyle photos. These presets have been carefully created. They can be used to enhance your photos.

For a better experience, the presets can be tested using photos taken with different phones as well as professional DSLR cameras.

The tutorial is simple to follow and will guide you through the installation of presets.

Compatible with App Lightroom for iOS/Android, as well as the Desktop Lightroom version.

All ARTA presets can be used in both versions.

Presets can be used in the FREE Lightroom App. You don't need a subscription.

Remember that every camera and photo is unique. These presets can be used as a starting point from which to make some adjustments to get the best photos.

Lightroom CC is required for the Desktop.

Desktop Presets are.XMP files.

Mobile Presets can be found in.DNG files.
