What is Motion Array VHS Film Maker?

Motion Array is a platform that provides various resources for video creators, such as stock footage, templates, music, and video editing tools.

The recently launched VHS Film Maker Pack offers a versatile range of presets that can be applied as overlays, transitions, or straightforward effects to both your images and videos. This comprehensive project houses an extensive collection of presets, numbering in the hundreds. Craft exceptional videos with the creative potential of this resource. Adjust the effect's duration and pace with ease by modifying the layer's dimensions, granting you the flexibility to customize to your exact specifications.
