These professional presets have been designed to streamline workflows when editing and processing photos. It has a trendy and modern design. Warm tones, saturated/faded matte, grainy soft skin, vibrant shades, and cool tones. It's all in this collection. This pack is a "must-have" for both photographers bloggers, designers, and photographers. The collection has been tested on a variety of photographs and is very effective. The adjustments are extremely well-thought-out and simple, and they work well across Lightroom 3.x up to CC The result is identical. It is possible to apply these presets to any image. They can also be described as multi-purpose.

Very important features Professional and unique results that can be achieved in a single click for photographers designers, bloggers, and Instagrammers, both professional and amateur. Quality is more important than quantity. There isn't a chance to see from our team 100 presets in one, with minor modifications between them, except for bundles. We are loyal to our customers and doing our best to offer the highest quality products. These presets do not alter what's known as the white balance (White Balance) of your photo, they function using exposure, color and contrast, whites, HSL, blacks, colors, and so on. That means that if the white balance appears to be "OK", they do similar things to what you see for the preview image which is incredibly easily customizable MAC and PC as well as MOBILE are designed to work in any resolution. No calibration profiles for cameras are required. some adjustments for images that are overexposed or underexposed.

What is Natural Feelings presets Lightroom?

It sounds like a versatile collection of presets designed to enhance various types of photographs, including studio photoshoots, portraits, and images with a creative touch. These presets seem to offer a range of effects, including warm tones, saturated/faded matte, soft skin, vibrant shades, and cool tones, making them suitable for a variety of styles and preferences.

As described, these presets are compatible with both Lightroom desktop and mobile versions, which adds to their flexibility. They have been tested across different versions of Lightroom, ensuring consistent results. This collection appears to be well-suited for photographers, bloggers, designers, and anyone looking to streamline their photo editing process and achieve a specific aesthetic.
