HD Colton Font Family – Latin, Greek, Cyrillic by MyFonts: HD Colton is a 90-style super-sans by London Design Studio **HyperDeluxe(r)**. It is a mix of vertical and horizontal terminals, as well as ovals that are squarish, it's designed with a strong design that feels different than just a normal sans it is a classic.

Made in five widths, compressed to broad, and with 9 weights. HD Colton features a vast 90 styles that give your brand the ultimate flexibility and variety in just one typeface family.

The black weights can help make your brand more prominent while the lighter to mid weights can help you tell your story in an easier size.

HD Colton features 1200+ glyphs in each style, giving you an all-purpose sans font that can support 200+ languages, including extended Latin and extended Cyrillic, and basic Greek. Additionally, there are five stylistic sets, two Arrow sets, and numerous OpenType features (see the previous poster for all the features).

HD Colton Complete Family Package HD Colton complete family package is a single 3-axis variable font. This means you'll have a myriad of options and combinations to play around with and add a touch of elegance to your images.

Variable fonts are compatible with technology, offering smaller font sizes for developers working with and being responsive and utilized to design motion on the internet.
