Wedding pureness presets – Zhenya Swan Presets: A preset collection for editing weddings, family, and few shoots. Various all-purpose presets are made to provide a soft and organic movie look and also to minimize your editing period.

After shot more than 100 weddings throughout the world - from South Africa to Iceland, I have been on the lookout for ideal combinations of hues and tones that would present my images with a timeless, natural appearance and which would match the shooting and lightning requirements in various continents and countries. And when it comes to weddings, I'm a huge fan of Fine Art design, so that I aimed to make presets very similar to famous movie colors that customers love a lot.

In a fast-moving world, it's growing increasingly more challenging to shoot pictures. But it's so essential for family and wedding photographers to stay natural colours, soft shadows and light skin tones of portraits, so as to create classic memories to our clientele.

Wedding Pureness preset collection is particularly designed for editing weddings, couple and family shoots, but in addition it helps editing stock photographs as it provides your job really natural, but also saturated and glowing appearance.

Annually I spare hours and hours of editing, as a result of my distinctive Wedding Pureness collection which matches quite distinct kinetic conditions and forms of shoots - out of a transparent feminine portrait indoors to making hot movie tones in the sunset light.
