

frischluft - AEX bundle 2023.6 CE (WIN)

2025-02-10 17:00:42 [label](#) [我要反馈](#) [下载页面](#)

frischluft - AEX bundle 2023.6 CE (WIN): The Flair plugin provides eight high-quality effects. This includes glow, sparkle shimmer, glitter, and glow effects. Naturally, there's 16-bit as well as multi-CPU compatibility.

Its Fresh Curves plugin is a highly flexible and precise tool to correct the color of curves. The default After Effects version lacks the control and precision to benefit from it entirely. Fresh Curves overcomes these limitations to let you make the most of this crucial tool.

The Lenscare plugin shifts out-of-focus and depth-of-field production to post-production. If you are looking for high-end blur effects on your camera and the ability to perform 2D processing, Lenscare can be a good option. It will help you avoid long, longer rendering times in 3D. The primary goal of developing the filters was to match the real-world rendering as closely as possible.

Its Taronites ZbornToy plugin introduces new significance to the compositing of depth. ZbornToy can get the most details from simple depth images, not just creating texturing and lighting but refracting the background, directing caustic reflections that reflect onto the backdrop, and much more.

The collection of plugins includes:

- Flare v1.2.12 glow effect
- Fresh Curves v1.1.6 tool to tone curves
- Lenscare v1.5.1 lens depth of focus virtual focus blur
- Taronites ZbornToy v1.1.0 depth map effect processing
- The Win support system supports After Effects and Premiere Pro software
