Magic Nodes v2.0.1 for After Effects (Win, Mac):

Merge nodes and layers seamlessly in After Effects to achieve a visually cohesive composition:

- Harmonize elements visually through nodes for a seamless blend.
- Fine-tune timing and duration effortlessly using After Effects' versatile layers.

- Work with multiple graphs within a single project file for increased flexibility.
- Introducing node groups to maintain a well-organized graph structure.
- Expanded compatibility with 3D layers and 3D cameras, unlocking new creative possibilities.

Experience a refined user interface for enhanced usability and various other improvements to elevate your workflow!
