To search for similar products to Gumroad – Laser Reveal – Houdini & Nuke VFX Course with Project Files,

Houdini:

- Begin by crafting a growth attribute, the powerhouse behind our FX.
- Utilize this attribute to generate a dynamic VDB mesh and the mesmerizing laser rays.
- Establish custom attributes for enhanced shading capabilities.
- Generate smoke with the laser-induced geometry and create a subtle fog volume for scene ambience.
- Build everything from scratch within Houdini, excluding the provided Helmet geometry.

Rendering (Redshift):

- Dive into Redshift for rendering, setting up materials, and exploring optimal methods for render passes crucial for compositing.

Nuke Compositing:

- Bring the entire creation together in Nuke, commencing with the recreation of the beauty pass.
- Separate AOVs for precise control over the render's reflection, specular, and GI aspects.
- Combine custom passes and attributes to craft new layers, adding intricate detail to the scene.

This course guides you through the entire process, from Houdini's FX creation to Redshift rendering and Nuke compositing, ensuring a comprehensive learning experience. Get ready to elevate your skills in visual effects and compositing!
