Logo Grid Generator Pro:

Logo Grid Generator is an Adobe Illustrator extension designed to enhance logo design efficiency by automating grid creation. It allows users to generate grids up to 100 times faster with a single click, helping identify errors and inconsistencies in logo designs while showcasing their mastery.

The extension offers a Customize Tab for full control over grid components, enabling users to adjust anchor and handle sizes, gridline stroke weights, and colors. Additionally, the Preferences Tab allows users to set gridline sensitivity and activate circular trajectories with adjustable sensitivity. Subscribing to the Pro version unlocks more advanced features, elevating the logo design process.
