Aescripts Face 3D v1.0.3:

"Face 3D" by Nataworkstudio is an AI-powered tool that transforms photos into fully animatable 3D models. It is designed to be user-friendly, fast, and capable of handling even 4K resolutions. The tool requires Blender for background processing and is compatible with After Effects v24.2 and above, using the Advanced 3D Renderer.

Key features include:

- **3D Portrait and Photo Animation:** Easily create 3D models from photos that can be animated.
- **AI-Powered Depth Maps:** Utilizes depth maps to convert 2D images into 3D models, with options to download or generate these maps using aescripts AI plugins.
- **System Requirements:** Requires Blender installation and specific versions of After Effects for optimal performance.

The tool is designed to quickly bring photos to life with realistic 3D effects.
