Intense Action Trailer–Man On The Edge VH-12509816: Exciting Action/Drama Opener with Alpha and Lower Third enabled Walkcycles+

An all-new opener titles showcase this modular kit includes separate comps that can be "mixed" and edited.
Man on the Edge presents typography (BIG titles, preferring) with high impact.

You can use it as is or design your edit and environment.

It has three slow-motion 30 FPS and HD 1920x1080 HD pre-rendered walk cycles (all in one the same place) with or without no flames.
Because all three walk cycles (Without the flames being loopable) This means you could modify to extend and re-design"catching flames "catching flames" part into an additional point in the sequence.

This fantastic animation is ideal for those looking for an innovative and thrilling look. Perfect for Broadcast, TV music events, shows, or even as a generic presentation. The 007/Secret Agent is a James Bond style.

Important notice: Because of CC Ball Action's technical capabilities: If you preview or export this in a quarter or Half resolution, it will not show the text, or the transitions will show.

- Full HD Project, Fully Modular (Each scene is separate from the other) 30 FPS
- No Plugins Required
- 3 Alpha enabled loopable comps(w/o flames) Front/Close up and Side views
- After Effects CS4 and above are Compatible
- It also includes a lower-third comp that you can use with photos or video
- PDF Manual Included
- The font used for this includes Dosis
- Soundtrack by PinkZebra
