- 1.
- 2.

The **City Road Builder Prov2.1** is a comprehensive tool for Blender users, facilitating effortless creation and customization of roads within scenes.

How can users apply additional connections and road types to their projects?

They can use "Blender Market - City Road Builder Pro" to design their project.

Gfx plugin details of Blender Market - City Road Builder Pro v2.1

The product is in **category from Blender Market**, for more information about this post you can click the home page link in the sidebar.

"City Road Builder Pro" Samples:

With features like one-click road creation, curve adjustment, and the addition of various elements like sidewalks, barriers, and lights, it streamlines the road-building process.

Further enhancements, such as advanced lighting systems, junction creation, and additional road types, are planned for future updates. Users can also expect functionalities like adding roadside grass and trees, editing road wetness and bump maps, and more.
