Moho Pro is perfect for professionals who are looking for an efficient solution to create quality animations! Bring your animation ideas to life!

The Future is 2D

Moho Animation Software provides professional strong, efficient, and simple-to-use animation and rigging tools. You can draw directly within Moho as well as import work from another application. Moho can give you more simple and quicker results while maintaining the quality you're searching for.

Discover your creative side and realize how the next generation is 2D!

The most efficient 2D system of rigging

Moho's rigging method is simple and speedy. You can create your own characters in a matter of minutes! Create skeletons of human animals or any other animal or object you wish to move. Use Forward and Inverse Kinematics. Create target bones, then include Pin bones to give you special control, create a structure, add constraints Add automatic stretching and squashing for any bone copy and Relatively Paste animations between characters with similar skeletons, and so on! Find out why Moho's rigging technique is the secret weapon for many musicians!
