8 Portrait Film Look Presets By ZedProMedia: These presets are easy to use and high-quality. These presets were created by professional photographers and are used to enhance portraits. These presets were inspired by my Fujifilm favorites, but with a modern twist. Beautiful skin tones and warm colors. These filters are not tacky. These filters will give your images a professional look.

This is for Lightroom CC and Lightroom Classic. Lightroom Mobile. Photoshop CC.

- Full support videos for installing Lightroom in iOS, Android, and desktop versions.
- 8 Custom film looks based on Fujifilm stock.

These preset save you time and create a cohesive look for your images. These presets can be used to create similar images to the ones in the previews. You will need to adjust your exposure and white balance depending on how you shot the images. If you're unsure, there is a helpful video that will show you how to do it.

Important: These presets were created for Lightroom & Photoshop only!
