Cloudscapes – Hyper Realistic Vdb Clouds Collection: Clouds can bring a sense of authenticity to the overall look of any 3D project, but making clouds can be tedious and challenging. This is why we're excited to announce Cloudscapes, our - new collection of realistic clouds designed for Blender.

With more than 211 clouds across eleven categories, "Cloudscapes" offers an array of clouds to suit your needs. Every cloud is made using actual images, ensuring high accuracy and high quality.

Gfx plugin details of Cloudscapes – Hyper Realistic Vdb Clouds Collection

The product is in the **category from Blender Market**, for more information about this post you can click on the home page link in the sidebar.
To search for similar products to Cloudscapes – Hyper Realistic Vdb Clouds Collection,

Cloudscapes clouds are in VDM format, which means they're highly realistic and can be used in the most complicated scenes. Furthermore, the shaders can be fully adjustable, allowing you to design unique effects for every cloud.

Cloudscapes are compatible with Blender's asset search making it easy to include clouds in your projects. It also includes 29 biomes that can be used for GeoScatter. These cloud ecosystems have been pre-configured that can quickly produce an ultra-realistic sky.

In addition, Cloudscapes is compatible with EEVEE and Cycles renderers, which allows users to create highly realistic clouds for any scene.

In a nutshell, Cloudscapes is the ultimate cloud application for Blender. With a variety of stunning clouds, customizable shaders, and compatibility with the GeoScatter and asset browser, It provides a unique user experience to create stunning skies.
