The preset pack was made to be simple. It contains three different presets that you can apply to enhance your photos. "Ravenswood" will give you authentic colors and contrast as a reference. This is the one-click solution I recommend for all wedding photography galleries. "Belmont" is for the occasions where you'd like to play around with your style and follow the mood. It's perfect for any styled shoot or lookbook or band shoot, or any situation in which you'd like a trendy "look." Lastly, "Montrose" is my go-to black and white preset. It is sharp, grainy and contrasty and retains highlights and shadows of many different situations.
