

VisioForge Video Capture SDK v10.0.18.0 for D7-D10.3 Rio Retail + License Key

2025-04-16 17:00:06 [label](#) [我要反馈](#) [下载页面](#)

VisioForge Video Capture SDK allows developers to easily incorporate video recording and processing capabilities into their software applications. VisioForge Video Capture SDK can perform and capture audio and video streams from TV tuners, USB capture devices, DV camcorders, PCI capture cards, and IP cameras.

VisioForge Video Capture SDK allows developers to easily incorporate video recording and processing capabilities into their software applications. VisioForge Video Capture SDK can perform and capture audio and video streams from TV tuners, USB capture devices, DV camcorders, PCI capture cards, and IP cameras. VisioForge Video Capture SDK important attributes include: - Preview - Video catch to AVI (using audio/video codecs such as MJPEG, DivX, XviD) * Windows Media Video * WebM * DV and MPEG from DV Camcorders and TV Tuners with inner MPEG Encoder * MPEG 1/2 (VCD/SVCD/DVD), MPEG-4 (iPod/iPhone), FLV, using FFMPEG * DV (from any video capture device) * custom output formats (utilizing 3rd-party DirectShow filters) - Sound capture to WAV (compressed or not) * MP3 (using LAME) - Length catch to TBitmap/HBitmap from Delphi/ActiveX, BMP and JPEG files - Video processing and effects * picture overlay * text overlay * movie foil * brightness, contrast, saturation, hue, etc. * deinterlace * denoise * resize to some resolution * chroma-key * 3rd party DirectShow filters assistance - Sound processing and effects * quantity booster * equalizer * 3D-bass system - TV Tuning * TV channels picking * movie formats picking * input choice (TV-Tuner, FM-Tuner, S-Video, etc.) * auto-tuning - Video capture device controller * video input * movie format * frame speed * supports video cards with Different inputs * camera control (brightness, saturation, etc.) - Network loading - Motion detection - OSD (On-Screen Screen) - PIP (Picture-In-Picture) - Screen capture - Multiple outputs displays assistance - MJPEG / MPEG-4 / H264 HTTP / RTSP IP cams service

VisioForge Video Capture SDK for Delphi Great Features:

- Preview
- Video capture to
 - AVI (using audio/video codecs like MJPEG, DivX, XviD, x264)
 - WMV (support of custom WMV profiles. You can configure streams to use variable bit rate encoding (VBR), uncompressed audio or video stream, video size, buffer size, frame rate, etc.)
 - DV and MPEG from DV/HDV Camcorders and TV Tuners with internal MPEG Encoder (DirectCapture technology)
 - DV (from any video capture device)
 - MPEG-1/2/4 (including VCD/SVCD/DVD profiles) and FLV using FFMPEG wrapper
 - WebM
 - MP4 H264 / AAC
 - custom output formats (using 3rd-party DirectShow filters)
- Audio capture to
 - WAV (compressed or PCM)
 - WMA (Windows Media Audio)
 - MP3 (using LAME)

Delphi

VCL

Components

- Frame capture to TBitmap class, HBITMAP Win32 handle or BMP, JPEG, and PNG files

- Video processing and effects

- graphic overlay
- text overlay
- video transparency
- brightness, contrast, saturation, hue, etc.
- deinterlace
- denoise
- pan / zoom
- resize to any resolution
- chroma-key
- 3-rd party DirectShow filters support

- Audio processing and effects

- volume booster
- equalizer
- 3D-bass system
- TV Tuning
- TV channels selecting
- video formats selecting
- input selection (TV-Tuner, FM-Tuner, S-Video, etc.)
- TV frequency overrides
- auto-tuning

- Video capture device control

- video input (crossbar interface)
- video format
- frame rate
- supports video cards with several inputs
- camera control (brightness, saturation, etc.)

- Network streaming

- in WMV format
- to other media servers and devices using virtual camera/audio source

- Motion detection

- Closed captions support

- Custom interfaces support

- OSD (On-Screen Display)

- PIP (Picture-In-Picture)

- Video encryption

- Screen capture

- Virtual Camera output

- Multiply output screens support
