

Picture in Picture Pop Up (Videohive 44968442) - AE Project

2025-02-10 16:51:18 label 我要反馈 下载页面

Picture in Picture Pop Up - AE Project VH-44968442: Easily display a second, smaller image or pop-up within your video! The video you upload will be displayed on an actual operating system screen drawn by a mouse.

This pack contains a selection of animated PIP (Picture in Picture) effects that feature fully responsive designs to show additional images or videos on the screen with just one click. Adjust the display's size and width, and the content will appear automatically aligned and increased. You can adjust the animation speed to make the pop-up speedy or slow using one slider! You can also assign your video a name (optional).

Great for youtube videos such as webinars, business presentations, tutorials, online courses, event promotion, and corporate videos. It is available in studio and free versions, with any frame rate, and Apple Silicon and a video tutorial are included.
