Artweaver Plus is an all-in-one painting application with a realistic brush collection and advanced customization options that suit novice and expert users.

The software is equipped with a precise 16-bit brush engine that facilitates the achievement of exacting results but also offers innovative functions such as mirror painting for the effortless generation of symmetrical masterpieces. Its basic structure is compatible with image editing peripherals, layers, and transparency, which makes it handy for artists working together on a project over a LAN or the Internet. **Artweaver** is also customizable in terms of user interface design. Users are able to optimize their workflow using customizable keyboard themes and palettes.
