Colorist Factory - Power Curves: Power Curves by Colorist Factory introduces industry-inspired color grades designed for Adobe Premiere Pro, Final Cut Pro, and Davinci Resolve.

How to use industry-inspired color grades designed for popular editing platforms?

You can use "Colorist Factory - Power Curves".

Unlike traditional LUTs, Power Curves offer dynamic adjustments tailored for all skill levels, transforming footage from flat to vibrant.

These customizable grades allow seamless fine-tuning, enhancing post-production efficiency.

Designed for both commercial and feature-length productions, Power Curves provide a powerful and flexible color grading solution, revolutionizing the post-production workflow.
