What is Pastel Mood LR Preset Pack?

In Adobe Lightroom, a preset is a pre-established set of configurations that can be instantly applied to a photograph with a single click. These configurations encompass adjustments such as exposure, contrast, color balance, and various other parameters. Preset packs consist of curated collections of these settings, strategically crafted to evoke specific visual aesthetics or moods.

If "Pastel Mood LR Preset Pack" denotes a particular collection of presets for Adobe Lightroom, it is likely designed to emphasize a pastel color palette and cultivate a distinctive mood in the edited photos. Pastel tones, renowned for their softness, lightness, and tranquil, dream-like ambiance, are likely central to achieving the intended visual effect.
