Morph between your cameras After Effects Only Like you're doing in Cinema 4d.

Decide whether you need To Participate at a bezier plasma route.

In **version 1.2.2**, a Morph Choice panel has been included.

You can start it by clicking on the'Gear' Icon at the bottom left corner.

Within this panel, you can assess the properties that you need to morph. You do not Need to morph between each of the properties just like you're doing in previous edition.

'Keyframe for every camera' will create keyframes for each camera you morph.

- Simple UI And exceptionally simple to use
- Tweak your Spatial bezier morph route as you enjoy
- Morph Involving any parameter that After Effects camera has
- Morph Between multiple cameras to attain complex camera cartoon
- Click one Button to construct or upgrade you camera rig at an instant
