Unreal engine - Insane Spear-Shield Anim v4.27: Introducing the Insane Spear-Shield Anim Set, a comprehensive collection of animations designed for the main character wielding a Spear & Shield. This asset pack is explicitly crafted for action-packed games like the AC series, offering dynamic animations to enhance your character's combat prowess. With animations for various actions such as idle stances, attacking combos, defensive manoeuvres, and even finishing moves, this set provides everything you need to bring your character to life in intense battle scenarios.

Featuring a total of 120 animations, including unique moves like shield attacks and spear throws, the Insane Spear-Shield Anim Set ensures that your character moves fluidly and realistically during gameplay. Whether executing precise strikes, evading enemy attacks, or delivering powerful finishing blows, these animations are meticulously crafted to add depth and authenticity to your game's combat mechanics. Additionally, the set includes animations for equipping and unequipping weapons, as well as various movement animations like walking, running, and jumping.

With full compatibility with the Epic Skeleton and support for both Root Motion and In-place animations, integrating these animations into your game is seamless and hassle-free. Whether developing for Windows platforms or targeting specific build platforms, the Insane Spear-Shield Anim Set provides the flexibility and quality you need to create captivating gameplay experiences. Elevate your game's combat system with this comprehensive animation pack, which includes FX to enhance visual effects during combat sequences.
