Bluezone introduces Blaster FX is an incredible new collection of sound effects specifically designed to work with Electro, Techno, Dubstep and Drum and Bass the Trance genre, and Hardstyle. It's impossible to leave out this new and exciting pack that offers a wide range of options for today's most demanding productions. As with all the products of Bluezone Corporation, Blaster FX can be downloaded immediately and comes with complete rights for all applications. You'll have to listen to be convinced. This Blaster FX pack offers many powerful sounds that can add that little bit of magic that you've been seeking. The packs 137 WAV files let you create chains, innovative breaks, and powerful crescendos with a precise sound that can be precise. Created by the makers of Electro FX and Dubstep Adrenaline and the sounds that are in Blaster FX were created with the finest digital and analog machines as well as analog modeling techniques. Then, they were refined and mastered through various effects racks. Blaster FX has full user rights and is, therefore, able to be utilized in commercial musical productions at any cost.
