An accumulation of more than 5 years of hard work and development, this collection contains 20 Adobe Lightroom Presets (cinophile and my own,) that I've created to meet my requirements regardless of the condition. Each preset is distinctive and subtle color-grading that can create vintage and cinematic tones that best suit the emotion you want to convey with your images. This pack is an excellent learning tool when you're just beginning to master the basics of lightroom using these presets as a basis to edit and make adjustments of your own.
