We have been there, Doodling using a ballpoint pen whilst conversing on the telephone with a person to get hours. Our real respect goes to all those musicians, that sketch with pencil and Create so realistic and detailed artworks! Inspired by their own ability, we have Completed this exact photo result.

There is, essentially, no room for mistake when the stoke is created, not like using graphite pencils and also an Eraser accessible. Contrary to this Photoshop influence, you can experiment to as Long as you need, looking out different paper stripes and 10 gradient ballpoint colors. Fantastic for landscapes and portraits!
