### dslrBooth Professional:

dslrBooth is a versatile, user-friendly photo booth software for Windows PCs, compatible with Canon, Nikon, GoPro, and webcams. Ideal for event photography, it supports capturing photos, GIFs, boomerangs, videos, and 360-degree content. Designed with customization at its core, dslrBooth allows users to shape each booth experience to align with event themes or brand identities.

Users can personalize every visual aspect, from start screens to print layouts and provide guests with a unique, interactive experience. Integrated sharing options via email, SMS, social media, and offline channels ensure easy distribution, while advanced features like Green Screen, Mirror Booth, and Video Guestbook add variety to guest interactions. The software also supports cashless payments and remote control, making it easy to run a professional, adaptable photo booth.

- **Capture Variety:** Photos, GIFs, boomerangs, videos, 360-degree captures, with high-quality 120/240 fps options for 360 booths.
- **Customization:** Tailor the booth experience, from screen themes and layouts to filters, overlays, and animated content.
- **360 Booth:** Capture unique, all-angle videos with speed ramps and customizable overlays.
- **Glam Booth:** Enhance guest photos with flawless skin filters and black-and-white effects.
- **Green Screen & Chroma Key:** Replace backgrounds with custom images for immersive, themed visuals.
- **Mirror Booth:** Guide guests through experiences using pre-set videos and audio prompts.
- **Video Guestbook:** Capture personal video messages from guests as memorable keepsakes.
- **Cashless Payments:** Enable a profitable, cashless photo booth experience with built-in payment options.
- **Advanced Printing:** Create custom print layouts, add text, overlays, and guest signatures, compatible with various paper sizes.
- **Interactive Sharing:** Share via email, SMS, social media, QR codes, and offline.
- **Touchless Control & Mobile App:** Guests can control sessions via mobile, with remote booth monitoring.
- **Cloud Sync & API Integration:** Sync events across devices and integrate custom apps for advanced functionality.

dslrBooth simplifies professional photo booth setups, making them accessible, highly customizable, and shareable for any event or brand experience.
