Search, Edit, and Apply expressions During your project. Expressions could be stored, or immediately applied to one or more possessions. In addition, it can check for broken expressions, re-enabling them automatically where possible.

- **SEARCH:** Utilize the search options to specify which sayings you're searching for. Click on the Search button to scan your job for expressions according to your search criteria.
- **FETCH:** Using Vehicle Fetch empowered, when you choose an expression in the list it will show up in the text ready for editing. When Automobile Fetch is away, use the Fetch button to acquire the chosen term in the edit box. Pick a property on your comp rather than the listing to bring the saying from that point.
- **APPLY:** Edit the saying from the text, hit the Apply button to apply it to some properties chosen in the listing. Note: You will want to utilize Ctrl-Return to receive a lineup in the text.
- **ADD TO TIMELINE:** Use this button to add the expression to some chosen properties in the Timeline. This is beneficial if you would like to add expressions to properties that don't have ones implemented. You will want to do a fresh look for any recently added expressions to appear in the listing.
- **AUTOTEST:** Using Automobile Evaluation enabled the script checks expressions through a search to be sure they are legitimate, showing new mistakes or re-enabling them when preceding mistakes are fixed. Should you do something which violates your expressions you can merely Undo then conduct an investigation to re-enable them. Although this choice is recommended, it is possible to turn it off in the event that you would like to do searches that will not impact the outcome.
- **ACTIONS:** Utilize the actions/preset pulldown to enable, disable, or remove any chosen expressions. Use Refresh List in case you have made any modifications and wish to update the listing. Utilize Test Expressions to inspect the expressions that are legitimate.
- **PRESETS:** An expression from the text, click on the Save button to store it as a preset. Select previously-stored expressions in the Base of this Action/preset pulldown, then click Apply to add them into some possessions chosen From the listing.
