Unreal Engine - Animalia - Meadow Grasshopper: Introducing the realistic and detailed animated Meadow Grasshopper, featuring a meticulously crafted model with 4K textures and 11 animations, all available with and without root motion. The inclusion of LODs and a ragdoll setup ensures optimal performance. Although not scaled to the Epic skeleton, the grasshopper model is rigged and ready for integration into your game. With 7,804 vertices, this asset includes 11 animations, covering a wide range of movements. These animations come in both root motion and in-place variants. The Meadow Grasshopper is suitable for all development and target build platforms, making it a versatile addition to your project.
