Volume High-quality mockup of **120ml** vape bottle for e-juice, that has been carefully designed after Chubby Gorilla(r) V3 unicorn bottle. This mockup comes with a broad variety of options for customization, including the lid as well as the bottle's color as in addition to semi-glossy and glossy reflections.

Great for:

- Designing labels professionally
- Images of the products that are used for the marketing and online stores

Cap Types

- Transparent
- Opaque

Bottle types

- Opaque plastic
- Transparent Plastic (LDPE)
- Clear (PET)

Custom color option for:

- Lids (Both transparent and solid)
- Opaque plastic bottle
- Transparent plastic bottle
- Liquid (with clear PET bottle)

Label use:

- Graphic with background filling to mimic an opaque label
- Background with a transparent graphic that mimics transparent label

Sets of reflection:

- Glossy
- Semi-glossy

(Reflection can be adjusted for each element individually)

Very simple to make use of:

- Click twice on the Smart Object
- Place your label design, Save
- Select the color or type you want for the bottle and lid, then select their reflection kind.

Specifications:

- 3000x3000px/300 dpi
- Smart Object
- Reflections that are editable (Through altering the opacity of reflection layers)
- Shadows ON/OFF

- Fill in or TRANSPARENT background

Hardware Requirements

- Adobe Photoshop CS6 and ideally the CC version.
