Converted UE assets from CityBuilder3d are 60 diverse assets from the Derelict pack the Industrial pack and the Medieval pack as well as the Metropolitan pack along with the Scifi Cyberpunk future pack! Each genre has its individual Unreal Engine project file for quick access. (Soviet, as well as Hong Kong, packs not yet transformed for Unreal.)

Create your own custom cities using Blender 3d with more than 95 professionally designed 3d assets all in one easy-to-use add-on! Created by 3D artists from Hollywood and the CityBuilder add-on and 3D asset database lets you include over 100 3D built assets that are textured and modeled to your 3D model with the press of an icon! Improve your 3D art and visual effects with these high-quality assets that are included in a fantastic add-on that is easy to use!

(ANY future updates and CITY BUILDER 3D ASSETS are FREE IF YOU REGISTER YOUR NAME AT the purchase of the complete KIT)

Performance Note: These assets are pretty elaborate assets. We recommend using a computer designed for computer graphics. To make it clear, all of the projects featured in the promotional trailer we have included were made using 2017, Macbook Pro with 16GB RAM and an Intel HD Graphics 630 1536 MB graphics card.

Six kits with unique themes each packed in their own add-on that is professional!

The CityBuilder 3D add-on and asset database contain seven different themed kits that can be used for 3D visual and artistic effects. With 15 3D assets within each kit, there are plenty of options for buildings to pick from. Select from Industrial, Metropolitan, Derelict Future, Cyberpunk Clean Future, Medieval, Soviet, and Hong Kong-style cityscape assets to enrich your life.

is designed to be a platform that is already in use!

The CityBuilder add-on and 3D asset database were specifically designed to integrate with the powerful and proven Blender 3D software! Materials are optimized for use in conjunction with Cycles' realistic rendering engine, but they also work with Eevee real-time rendering!

NOTE ON PERFORMANCE: Citybuilder contains detailed 3D models and materials. Due to this, it is possible that the speed of performance on your PC when using multiple 3D assets may vary. For reference, the entire projects on our trailer for promotion were developed using a 2017, Macbook Pro with 16GB RAM and an Intel HD Graphics 630 1536 MB graphics card.

A cinematic motion rig is included at no cost!
