What is Color Pencil Sketch Effect Mockup?

A Color Pencil Sketch Effect Mockup typically refers to a visual representation or template that showcases how a color pencil sketch effect would look on a particular image or design. It's a way to present and preview the result of applying a color pencil sketch effect to a photo or artwork.

Mockups can also be used for marketing purposes. For example, if you're selling an app or software that can turn photos into color pencil sketches, you might create mockups to demonstrate the capabilities of your product.
