Jazz Promo for After Effects is a lively and dynamic template tailored for vibrant event presentations.

How to design advertising projects and party announcements using templates in After Effects?

You can use "Jazz Promo for After Effects" to design your project.

Designed with editable text, customizable colors, and media placeholders, it excels in promoting jazz festivals, concerts, and cultural events. Featuring hand-drawn, colorful abstract designs, the template is ideal for diverse uses such as advertisements, invitations, and party announcements. Its modular animations, expressive typography, and engaging visuals across 5 animated scenes ensure captivating presentations for audiences, supported by full-color control, font links, and a comprehensive video tutorial. Compatible with After Effects 2021 and above, "Jazz Promo" brings events to life with creativity and impact.

Package information

As of its latest update on 3 June 2024, the "Jazz Promo" template, compatible with After Effects CC, includes an After Effects project file featuring 5 media placeholders and 17 text placeholders.
