Spooktacular Fun: Draw Cute Ghosts in Procreate: In this class, we'll dive into the charming world of drawing by creating adorable ghosts. Learn the art of crafting cute pictures using simple techniques, and we'll start from scratch, so there's no need for additional preparations.

No prior experience or fancy tools are required for this class. Everything will unfold in Procreate, but if you prefer other software or want to explore traditional materials, feel free to join!

Throughout the class, we'll cover:

- Gradients
- Techniques like Alpha Lock, Clipping Masks, and Blending Modes
- Achieving a Glowing Effect

By the end of the class, you'll have:

- Four fully colored illustrations featuring cute ghosts, perfect for use as clip art or standalone illustrations, whether in print or digitally.
- Basic skills in creating adorable characters.
- The foundation to embark on your journey of crafting kawaii pictures.

All class materials, including the color palette, can be found in the Resources section. Join in, and let's bring these cute ghosts to life!
