Red Giant VFX Suite 2025.0 (Win, Mac-v2023.4.1):

This is the first time you can experience real Lens Flares. Create realistic flares to your lens using accurate optical models and Ray-traced lighting to create the authentic look of a photograph.

- VFX COMPOSITE
- VFX CHROMA Key
- VFX TRACKING AND CLEANUP
- VFX GLOWS, GLASSES & LIGHTS
- VFX DISTORTION

The most recent update for Red Giant includes updates to our Trapcode Magic Bullet, VFX, and Universe toolsets. Trapcode 2024 lets you develop realistically simulated thermal effects using the particular fluid dynamics simulation extension. The VFX 2024 extension opens an entirely new realm of lighting control. It also includes a number of improvements to the popular Real Lens Flares. The new version of Magic Bullet 2024 lets you control the lighting. Magic Bullet 2024, color correction is much easier than before, and a variety of new settings give you greater creative freedom. Furthermore, Universe 2024 offers a great variety of new and innovative presets.

TRAPCODE

Trapcode allows 3D particle systems to go directly to After Effects. Utilize particle emitters to create fire, smoke, water, and other natural visual effects. You can also create stunning user interfaces and technological marvels using immortal particle grids and 3D-like forms. If you subscribe to Red Giant, you get even more 3D geometry input options due to Cineware .c4d import. Utilize Cinema 4D files (including animation) in particle systems or create 3D models using After Effects.

MAGIC BULLET

Magic Bullet is a plugin that helps with finishing, color correction, and film look. With the power of real-time color grading tools, video denoising, and cosmetic retouching, you'll get everything you need to make your videos look stunning in the editing timeline.

UNIVERSE

The Universe is a collection of effects and video transition plugins for editors and motion graphic artists. Make your videos look authentic with vintage and contemporary appearances, and create beautiful glowing backgrounds, looping backgrounds, texts, glows, and other effects. Universe provides better results and has more shortcuts than the other features in your host application.

VFX

The VFX set includes plugins that allow keying, tracking cleanup, and visual effects composites within After Effects. VFX lets you create seamless composites and provides tools to speed up precise motion tracking, distortion of the lens, and removal of objects. If you're looking for beautiful lenses, glows, and distortion flares, VFX can also provide that.

Included packages:

- redgiant.content-coreui.framework.zip
- redgiant.contentservice.zip
- redgiant.rgbranding.zip
- redgiant.rguninstaller.zip

- redgiant.vfx-gpu-engine.zip
- redgiant.vfx.chromadisplacement.zip
- redgiant.vfx.json
- redgiant.vfx.kingpin.zip
- redgiant.vfx.klf.zip
- redgiant.vfx.lensdistortion.zip
- redgiant.vfx.lensflare.zip
- redgiant.vfx.opticalglow.zip
- redgiant.vfx.primatte.zip
- redgiant.vfx.reflection.zip
- redgiant.vfx.shadow.zip
- redgiant.vfx.spotclone.zip
- redgiant.vfx.supercomp-assets.zip
- redgiant.vfx.supercomp.zip
- maxon.vfx.bang.zip
