A soft preset that can give a bright and warm creamy to your photos. This is an excellent preset if wish to make your photos look stunning and unique with dreamy hues. It's perfect for influencers and bloggers who want an Instagram theme that is cohesive for their Instagram feed.

Included 1 DNG file The Creamy Pop JPEG files - how to install mobile-specific presets

You don't require any Adobe subscription to access these presets. The Lightroom application is free and can be downloaded straight onto your smartphone. Ideal for editing at any time and anywhere!

The best way to use presets is to apply them to high-quality, well-lit photographs. I typically shoot using my phone X, and these preset work well! Make sure you adjust the to the right exposure whenever you need it.
